

## Standard Infant Formula: 22 calories per ounce

### Do Not use this recipe for the following formulas:

- Neosure or Enfacare
- Nutramigen or Pregestimil
- Alfamino, Neocate, Peptigate or Puramino
- Extensive HA

### Mixing Instructions:

**3.5 ounces of water + 2 level scoops of powder**

### Formula Mixing Tips:

- Wash hands, countertop, and all equipment with soap and water before mixing formula.
- Always put the plastic lid on a clean surface with inside of lid facing up.
- Put the lid back on as soon as you scoop out the formula.
- Put the water in the bottle first and set it on a level counter to make sure you have the right amount.
- You don't need to use sterile water unless you have well water or your doctor tells you to.
- Keep the formula in the refrigerator in a covered container.
- Use any mixed formula within 24 hours.
- When making a big batch of formula you can use a blender or hand mixer to mix.
- Heat formula by putting the bottle in warm water. Don't microwave the bottle.

## Fórmula infantil estándar: 22 calorías por onza

**No utilice esta receta para las siguientes fórmulas:**

- Neosure or Enfacare
- Alfamino, Neocate, Peptigate or Puramino
- Nutramigen or Pregestimil
- Extensive HA

**Instrucciones para la mezcla:**

**3.5 onzas de agua + 2 cucharadas (incluida en el envase) del polvo al ras**

**Consejos para mezclar la fórmula:**

- Antes de mezclar la fórmula, lávese las manos, la encimera y todo el equipo con agua y jabón.
- Siempre coloque la tapa de plástico sobre una superficie limpia con el interior de la tapa hacia arriba. Vuelva a tapar el envase en cuanto saque la fórmula.
- Para asegurarse de que tenga la cantidad correcta, primero ponga el agua en el biberón y colóquelo sobre una encimera nivelada.
- No es necesario usar agua esterilizada a menos que tenga agua de pozo o si su médico se lo indica.
- Almacene la fórmula en el refrigerador en un recipiente con tapa.
- Una vez mezclada la fórmula debe usarla dentro de 24 horas.
- Cuando prepare una mayor cantidad de fórmula puede revolverla en la licuadora o con una batidora manual.
- Caliente la fórmula colocando el biberón en agua tibia. No meta el biberón en el microondas.

**Si tiene alguna pregunta, por favor, llame a su médico o al departamento de nutrición clínica al 720-777-2691.**
